**KAY MASINI**

FROM THE BRAIN TO THE BRUSH, or the pencil, pen, camera, fingers, etc. While we know where to look for ideas--museums, magazines, workshops, etc.-- sometimes we forget about the ideas we've stored in our mind -- where they've come from, how to retrieve them (or ignore them), how they progressed and developed. On January 4th, we'll explore what turns on our brains for the trip through our fingers. It will not include the Business of Art, the History of Art or Art as Decoration. It is designed as a power point presentation to be our time - to think about what we need - artist to artist, as we explore the Idea of Ideas.

Kay Masini has a degree in Art and philosophy from the Dominican University, River Forest IL and has studied at the Art Institute of Chicago. She has also studied with such watercolor artists as Zoltan Szabo, Frank Webb, Skip Lawrence and Maxine Masterfield. Her work is included in collections in the U.S. and Europe and among her exhibitions was a solo in Belgium. Her work is periodically included in European shows. Kay and her husband Don moved to Plymouth in 2003. She has been a member of Three Cities Art Club since 2008.
