MARCH PRESENTATION

Dennis Kapp & Dawn Knowles
What's New in Martin/F. Weber
Art Supplies

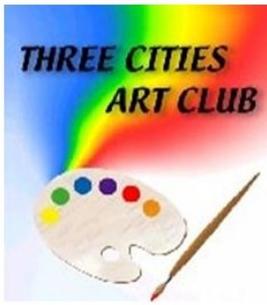

Established in 1853 in Philadelphia, Pennsylvania, the Martin/F. Weber Co. is the oldest and one of the largest manufacturers of art materials in the United States.

A significant number of patents for innovative art products have been awarded to the company over its storied history. One of the most notable, is Original Permalba White, first formulated in 1921 by Fred Weber. He was the first to develop a nontoxic, opaque, white oil paint with smooth working qualities to replace the toxic, lead-based whites that artists had used for hundreds of years. It remains the artists' standard in white oil paint.

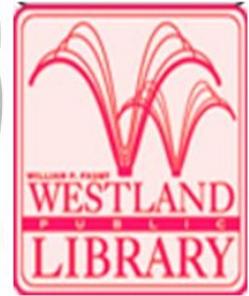

In the 1930's Mr. Weber introduced new pigments to the industry with excellent lightfastness and reduced toxicity to the artist and synthetic varnishes to replace the less stable natural materials used in the past. Turpenoid, an exceptional odorless turpentine replacement which is still the finest available, was introduced in the 1950's. This remarkably early commitment to the development of safer art materials continues to the present.

Since its purchase in 1980 by the Kapp family, and under the continuing guidance of Dennis Kapp, the now named, Martin/F. Weber Co. produces an ever widening range of exceptional art materials for artists of all skill levels.

Dennis and his daughter Dawn will enlighten us about the many new products available and answer all of our questions. Three Cities Art Club members receive a discount on Martin/F. Weber artist supplies at D & M Art Studio in Canton (on Lilley, south of Joy Road).
