SEPTEMBER Program Learn about Yupo and Masa paper from presenter, Jo Ahola

YUPO is a synthetic (not made from trees), erasable paper. The non-absorbent, ultra-smooth surface allows paints like watercolor and acrylics to sit right on the top of the paper, making for beautiful, watery effects unachievable on any other paper. It can also hold pen and ink lines with razor sharp precision, and markers work beautifully as well. It is durable, has a non-tearing construction so it can withstand multiple erasures and you can even run it under a faucet to erase watercolors! The non-absorbent nature of Yupo also means it will not buckle, no matter how much water you put on it, and it makes colors more vibrant and brilliant than on standard papers as all of the colors sit on the surface. Available in medium and heavy weight white and new translucent.

Masa paper utilizes a series of crumpling, wetting, and painting the paper to create an interesting background which can then be painted for a truly unique effect.

Member Jo Ahola will demonstrate the use of both Yupo and Masa papers.

My apologies, I misunderstood and thought that Marjorie Chelstrop would be presenting in September—my bad. Hopefully she will be with us after the first of the year.
