October Program

We are pleased to welcome back mixed media artist **Alessandra Collar Lipman** to our October meeting. Her collages are created with pieced fabric heat-fused to a cradle board and embellished with colored pencil. Vintage photographs and postcards, along with acrylic paint are source materials she uses to create memories of the past and figurative imagery. Some of her influences include classic children's book illustration, art dolls & miniatures and film noir. Join us on Monday, October 2nd, to see her mixed media art and hear about her process.

September Member Spotlight Recap

At the September meeting, we heard from long-time member **Nancy Bahr**. Nancy discussed her art journey using the three paintings she displayed. The first piece, a dog, was painted at age twelve. Her second painting, a watercolor enhanced with colored pencil, was also very good, but she found mastery of the wash technique difficult. At this point she concluded that watercolor was a very challenging medium. The third was an acrylic painting she is currently working on. She sought help from the audience in the form of a vote whether or not to include rocks in the composition. Painting has always been her hobby, helping her through good times and bad. Her two daughters were in attendance to see her presentation.
